In The Box

- (2) Slide Bearing Ratchet Frames
- (2) Steel Coated Cradles
- (2) Quick Connect Hardware

SKU#: MPG351

Warranty: One Year

Improved for 2010, the Telos™ temporarily attaches to the J-style [MPG106M AutoLoader™](#) and provides a safe way to vertically raise the kayak from waist height into a position where it can easily be loaded into the carrier. You can detach the Telos™ and use it on the other side to load your second kayak into another AutoLoader™ or store it in the trunk for unloading later. There is simply no other load assist system in the market with this versatility or this value

Features:

- Self-Locking Ratchet System Provides Safe Upward & Downward Travel
- Simple to use installation brackets instantly connect onto and then off the AutoLoader™
- Foam padded steel cradles protect the kayak from scratches
- Non-marking Suction Cups Anchor the Frames and Protect the Vehicle
- Aluminum Frame and Molded Plastic Components that Never Rust
- Easily detaches to load a 2nd kayak or store away
- One Year Warranty

Specifications:

- Capacity: 70 lb kayak
- Dimensions: 12" (length) x 6" (width) x 46" (height)
- Frame: Aluminum & Coated Steel
- Padding: High Strength Foam
