Overview

The VersaRail™ instantly transforms a bare roof into a functional platform for transporting bikes, kayaks, canoes or cargo boxes. Available in 50" and 58" lengths, these racks come fully assembled and ready to install. Includes coated steel cross bars, abrasion resistant dual suction towers and 1.5" attachment straps.

Features:

- Simple installation - Fits nearly all four door vehicles
- No additional tools required - Installation tool included
- 1.25" x .9" rectangular bar profile fits most rack accessories
- Rust resistant bar coating for years of service
- Abrasion resistant dual suction towers with 1.5" wide attachment straps
- Lifetime warranty
