

Rotomolded Kayaks - Epsilon P100

Boreal Design Epsilon P100 like its sister composite kayak is a capable and predictable for beginner through intermediate paddlers. Paddlers interested in the P100 will be on the lean side slender and weigh generally under 150 lbs. The Epsilon series is fully capable of week or two trips and even loaded with its rudder for auxilliary control it is an extremely capable and easy paddling kayak. A full compliment of deck safety lines and bungees are properly positioned to maximize deck space. Boreal Design invests in top of the line plastic in our molding process to ensure the quality is exceptional. A Stable and dry ride makes every paddle outing a comfortable and easy one!
