

## Quick Tow

*Designed for guides and instructors for quick multiple rescues. The bag has an oversized mouth allowing you to quickly tuck the line out of the way when a scenario demands additional action. It can be adjusted to any length with built-in shock dampener, used from the left or right side and has built-in flotation. The low profile bag contours to your waist and is attached to a quick release belt. Includes 25' of 1/4" polypropylene rope.*
