

Mysterioso TUL Pant

All M-tech and M-tech Lite products are made from quick drying Polartec fabric that provides warmth without weight. This fabric has a 4-way stretch that won't restrict movement, and provides maximum comfort with its soft, velour-finish fleece interior. The flatlock stitching prevents chafing, while the durable outer layer is wind and abrasion resistant; the inner layer pulls moisture from the skin and keeps you dry whether you sweat or are wet.

Product Specifications
