

## ***Zeagle 34Lb All Elastic Bladder***

*Similar in style to the Stiletto BC's bladder assembly, the All Elastic bladder has a separate elastic weave cover over a urethane inner bladder in place of a Corduroy nylon cover with bungee cord retractors. This allows for both a sleek, streamlined design and means that you can simply replace the cover or inner bladder when it's damaged instead of the entire bladder assembly.*

### *Product Specifications*

*34lb lift All elastic outer bladder cover with a separate inner bladder Intended for open water diving Left hand shoulder dump, two lower dump points Fits onto almost all Zeagle BCs and metal back-plates.*
