

Amundson Spark 10'6" - All Around Board

The moderately wide outlines of the Spark series are perfect for recreational paddling, because they offer the most stability for their size. The 10'6" is 32" wide, with a wide nose and tail, and 183 liters of volume. It packs the most stability possible into a relatively small board, so it gives you enough stability for yoga, but is still light enough to be easy to handle on and off the water.

Product Specifications
