

Amundson TR 29 12'6" - Tour & Race Board

The 12'6" TR 29 represents the fourth generation of the original TR. At 29 inches wide and 237 liters, it offers enough stability to be comfortable in rough water, and enough float to fit the medium to larger paddler. It is suitable as your first board, yet has enough performance to keep you excited about pushing farther ahead each day on the water. It is built in our Rhino-Lite™ technology, which is the best combination of weight, durability, and value on the water.
