

OCEANER - 7mm Raging Inferno Wetsuit

The Raging Inferno a full, 7 mm 2-piece suit combines the superior thermal properties of "Titanium" Neoprene with many warmth saving features, making it the warmest suit in the OCEANER Cold Water Wetsuit Fleet. The attached hood eliminates the rush of cold water down the back of your neck. The cold water Velcro neck closure, SCS (skin) lined arms, and deluxe spine pad keep the cold water from rushing in, and the warm water from bursting out.
