

OCEANER - Competitive Freediving Wetsuit

Biothermic - All Oceaner Performance Free-diver Competitive suits utilize a biothermic inner that helps in increase positive thermal qualities to provide a warmer, more comfortable performance experience. Top Quality Yamamoto - Yamamoto 45 is used on the SCS competitive suits. Yamamoto 45 is regarded as the highest quality material for competitive free-diving.

Product Specifications

Raglan sleeve - Currently, all free-diving wetsuits use a straight sleeve on the shoulder. This means a tubular body with attached tubular arms. Around the face, wrists, and ankles you will find a rubber seal. This seal is added protection against water flow. Colour Options: There are many different colour options available. The stock suit comes in Black (70% of the suit) with silver trim highlights(30% of suit). This provides higher visibility which is important for Free-diver safety.
