

## **OCEANER – 3/6 mm Rec 45**

*Probably the best wetsuit for Spearfishing and recreational Free diving. This suit is made out of the high end, ultra flexible YAMAMOTO 45 neoprene with an Ultra Stretch Lycra on the outside to provide better durability. Top Quality Yamamoto - Yamamoto 45 is used on the REC45 suits. Yamamoto 45 is regarded as the highest quality material for competitive free diving. Raglan sleeve - Currently, all free diving wetsuits use a straight sleeve on the shoulder. This means a tubular body with attached tubular arms.*

### Product Specifications

*Jacket bottom / beaver tail - A 3 layer composite biothermic in which 2 laminated layers are nylon sandwiched for better strength and wear qualities. This only covers the hip/bottom area where the beaver tail and bottoms receive the most use.*
